## **Phillip Island Golf Club – Men's Putting Championships**

The PIGC Men's Putting Competition runs over eight monthly medals, starting with the November Monthly Medal and ending with Monthly Medal in the following June.

The competition will use the average of the lowest five scores per player from the maximum total of eight medal days. This covers members who are unable to compete in every medal.

**ALL PLAYERS ARE ELIGIBLE**, there is no registration required and no cost.

Members that use the mi-score app only need to update their settings to enable putts and then each medal day just record their putts. No other work is required. Mi club provides a report with all the players putts for each medal day.

Members that do not use the app are required to submit a card showing their number of putts each game.

An updated leaders ladder showing the progress each month is added to the notice board each month.

The only rules are below

Only putting strokes with the ball on the green are counted.
